

FLOATING HOLE-IN-ONE

2025 PRODUCT CATALOG

REALISTIC PLAYABILITY

Built with shaggy artificial putting turf.

SOFT BALL RECEPTION

Shots hold on the surface like a traditional green, rewarding accuracy.

CUSTOM SIZING

Starting at 3.66m x 3.66m, our floating greens can be built to any size to fit your water features.

COMPETITIVE EDGE

Scoring zones can be added for exciting tournament play and member engagement.

WHY FLOAT?

VARIETY OF SHAPES AND SIZES

Choose from circular, rectangular, or uniquely shaped greens to create diverse challenges for players.

ECO-FRIENDLY DESIGN

Made from environmentally safe materials, these platforms are built to minimize their impact on natural water systems.

WEATHER-PROOF & DURABLE

Designed to withstand various weather conditions, from sunny days to heavy rain, without degrading or losing performance.

CUSTOM DECORATIONS

The exterior trim is available in various colors and decorative effects.

MOVEABLE

Easy to reposition, making ball retrieval and course adjustments effortless

CONNECTING WALKWAY

Available with connecting walkway and strong enough to support even a car, making it versatile beyond golf.

ENDLESS POSSIBILITIES

FLOATING HOLE-IN-ONE CHALLENGE

Offer players the chance to test their precision from the shore with dedicated tee-off points.

PRO-AM & CLUB EVENTS

Create special tournaments with exclusive floating green play.

VIP & CORPORATE EXPERIENCES

Offer a unique golfing attraction for high-end events.

CHARITY & FUNDRAISING CHALLENGES

Raise money for great causes with an exciting, eye-catching event.

JUNIOR & BEGINNER TRAINING

A great tool for coaching accuracy and control in a fun setting.

NIGHT GOLF EVENTS

Add lighting to the platform for a truly spectacular nighttime golf experience.

ATTRACT MORE PLAYERS & MEDIA ATTENTION

The first in Málaga (or Spain) to introduce a floating green.

INCREASE MEMBERSHIP & EVENT BOOKINGS

A one-of-a-kind feature that makes your course stand out.

Exceptional flexibility, buoyancy and modularity

Assembled using connecting pins every 50 cm, a pontoon made of cubes is highly flexible, making it suitable for a variety of water bodies, including ponds, lakes, rivers, and even rough waters such as the sea or ocean.

Each cube has a load capacity of 90 kg (at a height of 40 cm) and offers impressive buoyancy of 360 kg/m². This buoyancy can be increased two- or threefold by stacking additional layers of cubes.

Additionally, its modular design allows for adaptation to any location, project, and budget.

SERVICES EXTRA

SITE ASSESSMENT

Evaluating your location to recommend the best solutions.

CUSTOM DESIGN AND HAND MADE

Tailoring each green to your specific requirements.

DELIVERY AND INSTALLATION

Ensuring your floating green is set up and ready for play.

MAINTENANCE

Offering ongoing support to keep your green in optimal condition.

ADD MORE

Targets

We can add targets to the floating greens. POA

Floating Balls

Our floating golf balls are high quality, coloured golf balls which are ideal for the golfer who finds water holes a bit intimidating. They offer great performance and really do float. POA

Bridge Add On

For that extra touch, you can add a walk way to the floating green.

Common Questions & Answers - See the website for more.

1. What is a floating golf green?

A floating golf green is a buoyant platform designed for golf practice and entertainment. It allows players to hit shots onto a real green that floats on water, adding a fun and challenging element to the game.

2. Can the floating greens be used for competitions?

Yes! Many of our customers use floating golf greens for competitions, events, and even charity fundraisers. You can set multiple greens at different distances for a more engaging challenge.

3. What materials are used to make the floating golf greens?

Our floating greens are made from high-quality marine-grade materials, including weather-resistant synthetic turf and reinforced floating bases, ensuring durability in all conditions.

4. How do I retrieve golf balls from the water?

We recommend using floating golf balls, which can be easily collected with a net or retriever. For deeper waters, we offer an automatic ball retrieval system as an add-on.

5. Is the turf on the floating green similar to a real golf course?

Yes! Our synthetic turf mimics the feel and roll of a professional putting green, providing a realistic playing experience.

6. How do I secure the floating green so it doesn't drift away?

We provide an anchoring system to keep your floating green in place. The system is adjustable, allowing for slight movement to enhance the natural feel.
